PROFILE

Camera operator and videographer with 6+ years of professional experience across broadcast television, live multi-camera production, branded content, and documentary filmmaking. Worked on productions for Netflix, BBC, Amazon Prime, Channel 9, Red Bull, Marvel Studios and more, with on-set experience alongside high-profile talent including David Beckham and Robert Pattinson. Proven in high-pressure live environments — 400+ live productions onboard international cruise ships, dual-studio broadcast shoots in London, and large-scale immersive AV installations globally. Experienced across the full production pipeline from idea development and production, to post-production and distribution.

EXPERIENCE

AV Technician (Casual) | Encore — NSW & SEQ

Apr 2026 – Present

- Setup, operation, and pack-down of AV equipment for corporate events and live productions, including PTZ camera operation, vision mixing, and live streaming. Started operating across Brisbane and the Gold Coast, recently relocating the casual contract to the NSW region.

Camera Operator (Freelance) | Broadley Studios — Marylebone, London

Nov 2021 – Nov 2025

Award-winning broadcast studio specialising in TV production, live-stream events, virtual production, branded content, and corporate video.

- Operated on 300+ projects as camera operator and producer across studio, live broadcast, and branded content productions.
- Travelled to 14 countries across Europe and Asia in 2025 as Video Producer for InMode, coordinating crew, equipment logistics, and on-location production.
- Operated Sony FX range, Sony FR7, and Panasonic PTZ systems across multi-camera dual-studio shoots with 4K video feeds, audio routing, and remote camera control workflows.
- Produced content for global brands including Amazon Prime, Netflix, Disney+, BBC, ITV, Channel 4, Channel 9, Google, LEGO, Red Bull, Marvel Studios, L'Oréal, and Fujitsu, with on-set experience alongside talent including David Beckham and Robert Pattinson.

Videographer / Live Broadcast Operator (Contract) | Aida Cruises — Global Fleet

Dec 2023 – Dec 2024

- Delivered 400+ live multi-camera productions across 184 sea days onboard including game shows, musicals, concerts, and talk shows — operating PTZ cameras, vision mixers, and live streaming systems.
- Managed video and audio routing across ship-wide broadcast infrastructure across three vessels: AidaPrima, AidaDiva, and AidaStella.
- Produced 40+ documentary-style cruise travel films from concept to delivery, filming daily on and off-ship across 30+ countries with daily deadlines for finished content.

AV Technician (Freelance) | Frameless — Marble Arch, London

Aug 2023 – Nov 2025

- Provided AV technical support at one of the UK's largest immersive digital art experiences, supporting high-profile corporate events including Adobe Summit 2024, Pandora, EE, and Creed.
- Responsible for setup, operation, monitoring, and de-rig of projection, media server, audio, video, and lighting systems.

AV Technician (Contract) | Done+Dusted — Riyadh, Saudi Arabia

Sep 2022 – Nov 2022

- Installed a large-scale immersive theatre experience at a major theme park — configuring video, audio, lighting, and network systems including cabling, rigging, and power distribution.
- Coordinated local crew and completed system testing and commissioning prior to handover.

Various Production Roles (Freelance) | LG Vision & Sony Music

Jun 2020 – Nov 2021

- Progressed from runner to producer/director, delivering 10 music videos whilst on final year of university, for Sony Music artists with a collective 40M+ YouTube views.
